In response to the Examiner's Final Office Action mailed June 6, 2002, the due date for which having been extended two (2) months to November 6, 2002, please consider the following amendments and remarks in connection with the above-identified application.

IN THE SPECIFICATION:

Please amend the specification as follows:

Page 27, sixth paragraph entitled Embodiment 7, and continuing onto page 28:

(Amended) Fig. 7 is a block figure of an electro-optical system using an integrated circuit in which a display, central processing unit, memory, etc. are provided on a single glass substrate. An input port reads an externally input signal and converts it to an image signal. A correction memory corrects an input signal etc. in accordance with the characteristics of an active matrix panel, and is therefore dedicated to the panel. In particular, this correction memory is a fixed
